PROFESSIONAL SUMMARY

Software Engineering Fresher with strong foundation in full-stack development using React.js, Node.js, Express.js, and MongoDB. Experienced in building scalable web applications, RESTful APIs, and AI-integrated platforms using Google Gemini API. Passionate about problem-solving, clean architecture (MVC), and delivering responsive, user-centric applications. Quick learner with a strong ability to adapt to new technologies and contribute effectively in collaborative development environments.

PROJECTS

CodeCanvas | AI Resume Builder

Tech: Node.js. Express.js, MongoDB, JavaScript, React.js, Anti Gravity Google Gemini API **2026**

- Engineered an AI-powered resume builder with secure authentication and user-specific data management
- Integrated Google Gemini API to generate and enhance professional content dynamically
- Designed interactive UI workflows for structured resume creation with customizable themes
- Improved user experience with smooth animations and responsive design principles

HikeHide | Full-Stack Web Application

Tech: Node.js. Express.js, MongoDB, JavaScript, Bootstrap, React.js **2025**

- Developed a modular full-stack application using MVC architecture to ensure scalable and maintainable code structure
- Built RESTful APIs with dynamic query filtering (search, category, trending), improving data retrieval efficiency
- Implemented real-time search suggestions using asynchronous API calls, enhancing user engagement
- Strengthened backend security using middleware-based validation and error handling

MyPortfolio | Personal Portfolio Website

Tech: React.js, Tailwind CSS, GSAP **2025**

- Developed a responsive portfolio website showcasing projects and technical skills
- Implemented scroll-based animations using GSAP and ScrollTrigger for enhanced UI interaction
- Built reusable React components to improve scalability and maintainability

TECHNICAL SKILLS

Languages: Java, JavaScript
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js
Database: MongoDB
Tools: Git, GitHub, VS Code
Core Concepts: Data Structures & Algorithms, OOP, Responsive Design, MVC Architecture, REST APIs

EDUCATION

B.Tech – Computer Science Engineering with Artificial Intelligence and Machine Learning **2022 – 2026**
Lakshmi Narain College of Technology & Excellence, Bhopal *Bhopal, Madhya Pradesh*

Class 12 (PCM) – 86.4% **2020 – 2021**
Deepmala Pagarani Sanskar Public School, Bhopal *Bhopal, Madhya Pradesh*
